

DIRECT AGGREGATES

STONE DELIVERED DIRECT TO YOUR HOME

MEADOW VIEW
THE STONE PROFESSIONAL

If your stone requirements are in excess of what you can safely transport, then why not have the goods delivered direct to your home on our Direct Aggregate Service.

It's a simple, cost effective way to receive one full pallet of prepack bags or a bulk bag of any of the products featured overleaf delivered to your home.

4 Simple steps to success...

- 1 Select your product choice
- 2 Pay at the counter where your address and contact details will be taken
- 3 You will be contacted to arrange delivery on a mutually convenient day
- 4 The stone will be delivered and brought as close to your door as possible - Usually within 7 days* (please see delivery restrictions)

*Delivery restrictions

1. Your access and roads approaching your property must be wide enough to accommodate a refuse truck sized vehicle.
2. The designated delivery area must be a flat level surface, free of gravel and uneven paving etc. **Pallet trucks cannot deliver up or down inclines.**
3. The delivery area must be free of any low hanging branches or other obstructions that may restrict the access of a high sided vehicle or which may cause damage to it.
4. You, or a designated individual, must be available to sign for the goods, with a contact telephone supplied if different to your own.
5. If the delivery driver deems it in anyway unsafe or unsuitable to off-load, we reserve the right to refuse delivery and the goods will then be subjected to a re-delivery charge to an alternative suitable address.
6. **Damages must be reported within 24 hours of delivery.**

Please note if you do have delivery restrictions we can usually accommodate minor problems as long as we are aware of all factors prior to delivery.
